

Steps to better credit health

A helping hand for your customers:
Car finance

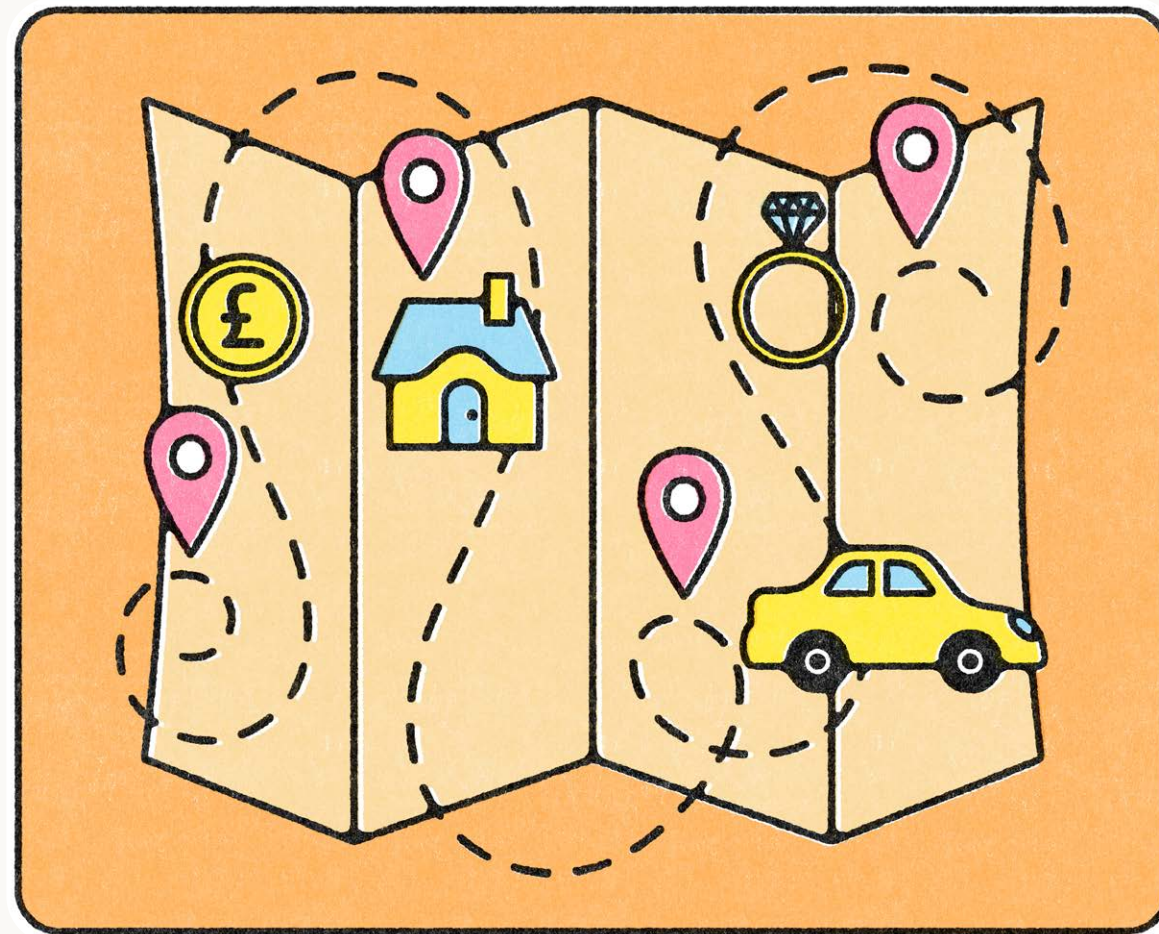

Everyone has goals.

Some of life's biggest moments depend on your ability to borrow money.

Whether it's taking the first step on the property ladder or embarking on a mammoth home renovation, credit reports can feel like a dark cloud hanging over your dreams.

That's where we come in.

Through your referrals, we're able to help our customers make sense of the numbers and understand where their credit health's at. What was once a daunting hurdle can become an opportunity for getting on the path to making goals a reality.

Buying a car on finance

Just like cars, credit reports sometimes require a little TLC. Here's how we help customers get in gear to secure a new motor:

1. Their file will flag any **unexpected issues** that might hinder loan applications – saving time before the hunt for a new car begins.
2. Further down the track, customers can use their file to check the closure of **outstanding finance** if they decide to trade the car in, settle any remaining debt, or arrange voluntary termination.
3. They can make sure any new accounts have been **set up properly** too.
4. When it comes to fitting custom upgrades – be it shiny alloys or a new sound system – they'll have the info they need to decide when the time is right to **apply for credit**.

Set up for success
