

Steps to better credit health

Why use checkmyfile

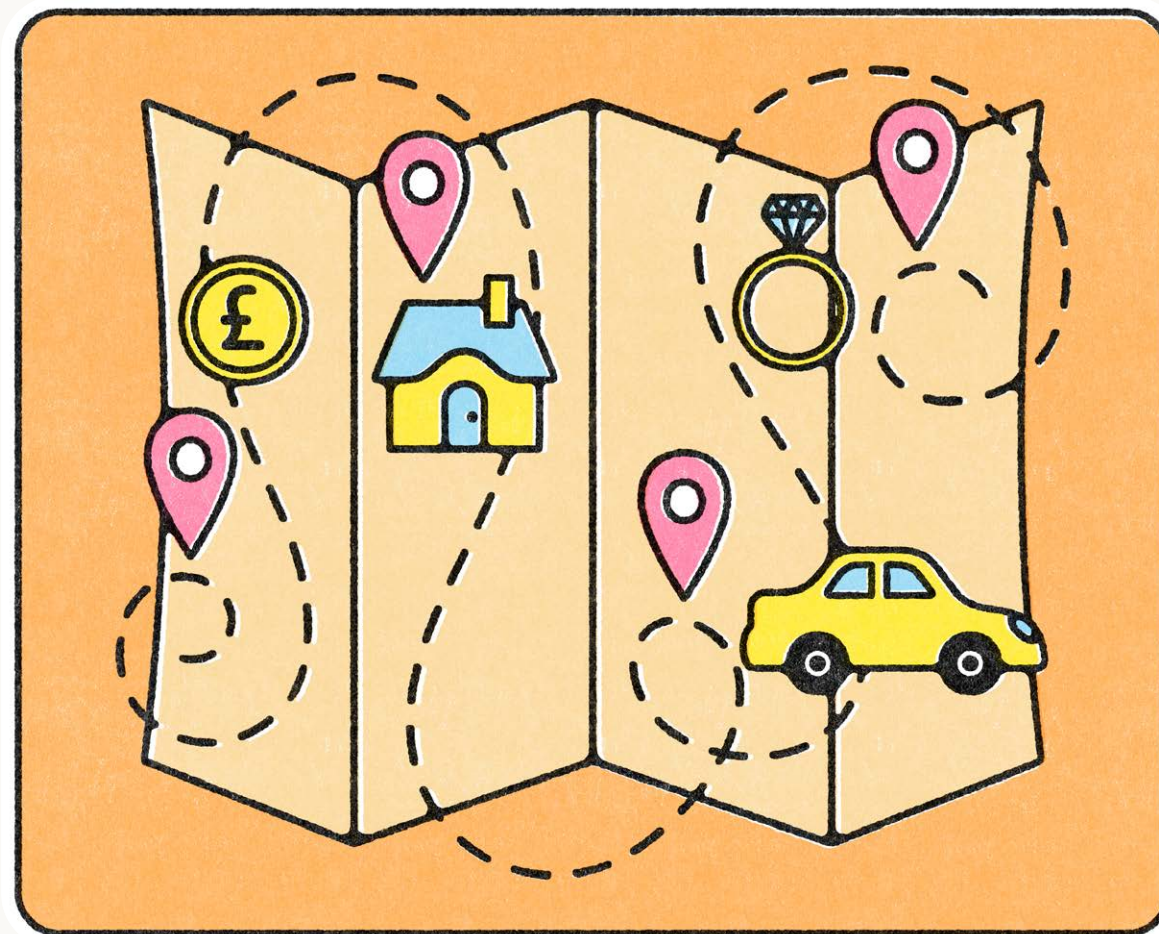

Everyone has goals

Some of life's biggest moments depend on your ability to borrow money.

Whether it's taking the first step on the property ladder or embarking on a mammoth home renovation, credit reports can feel like a dark cloud hanging over your goals.

That's where we come in.

We help people make sense of the numbers, so they know where they stand. What was once a daunting hurdle can become an opportunity for getting on the path to making dreams a reality.

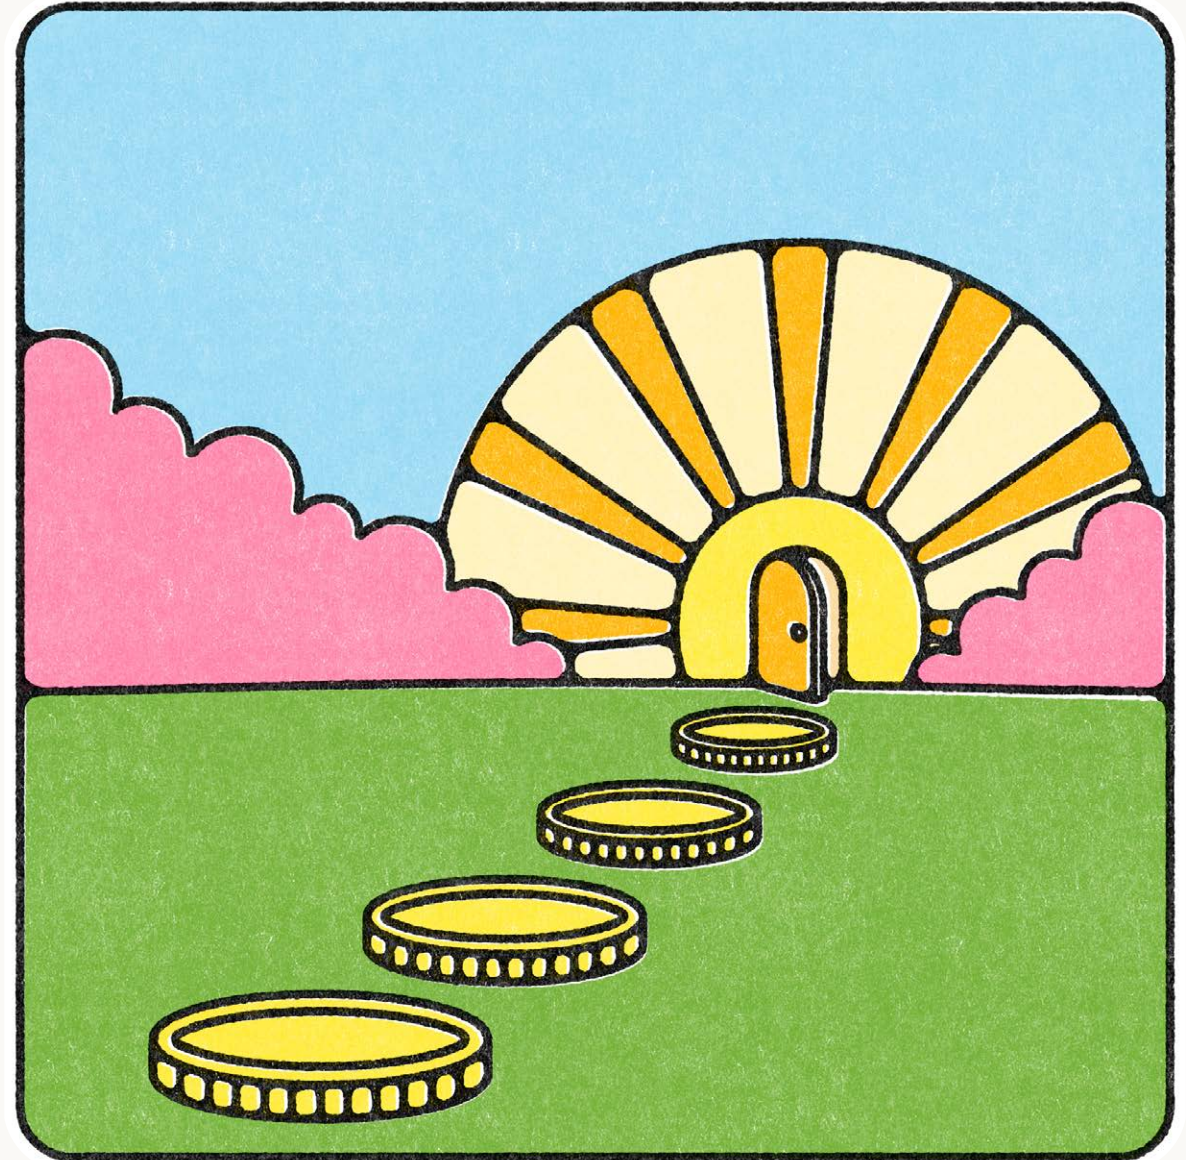

Why use Checkmyfile

Dealing with loans, debt, and money in general can be stressful and confusing. We can help you make sense of the detail and provide clarity where it matters most.

Here's why you should monitor your credit health with Checkmyfile:

1. We provide the only credit report that puts your information from the **three main UK credit reference agencies** – Experian, Equifax, and TransUnion – in one place.
2. You'll get access to our **customer care team** that's on-hand for any queries via phone and email.
3. Something not looking right on your report? If there's an error, we can get in touch with the agencies **on your behalf** and help get it fixed.
4. We'll show you the steps you can take to improve your numbers.
5. We've got over **20 years' experience** and are rated 'Excellent' on Trustpilot.

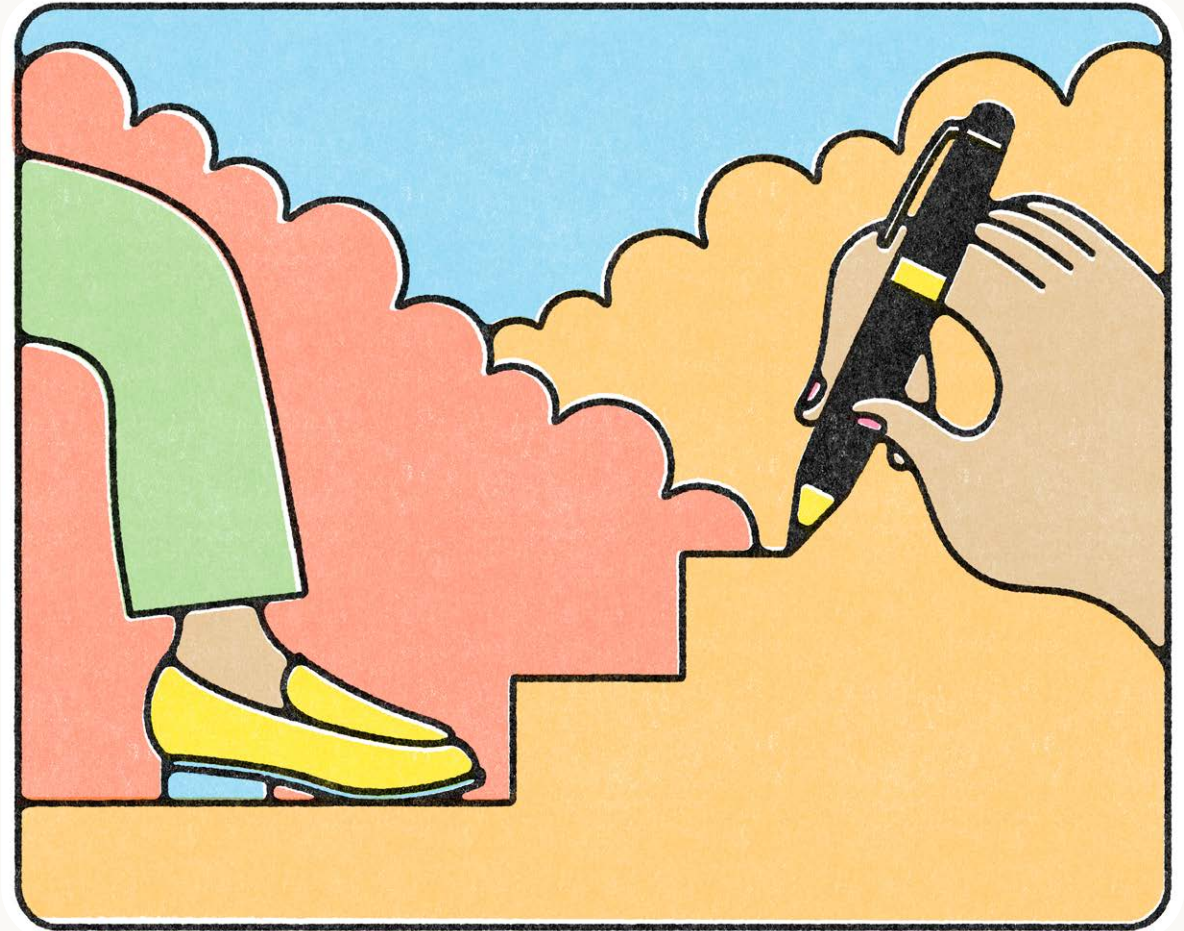

For the long term

You never know what's around the corner.
But you can know everything on your credit
report and be prepared for life's big moments.

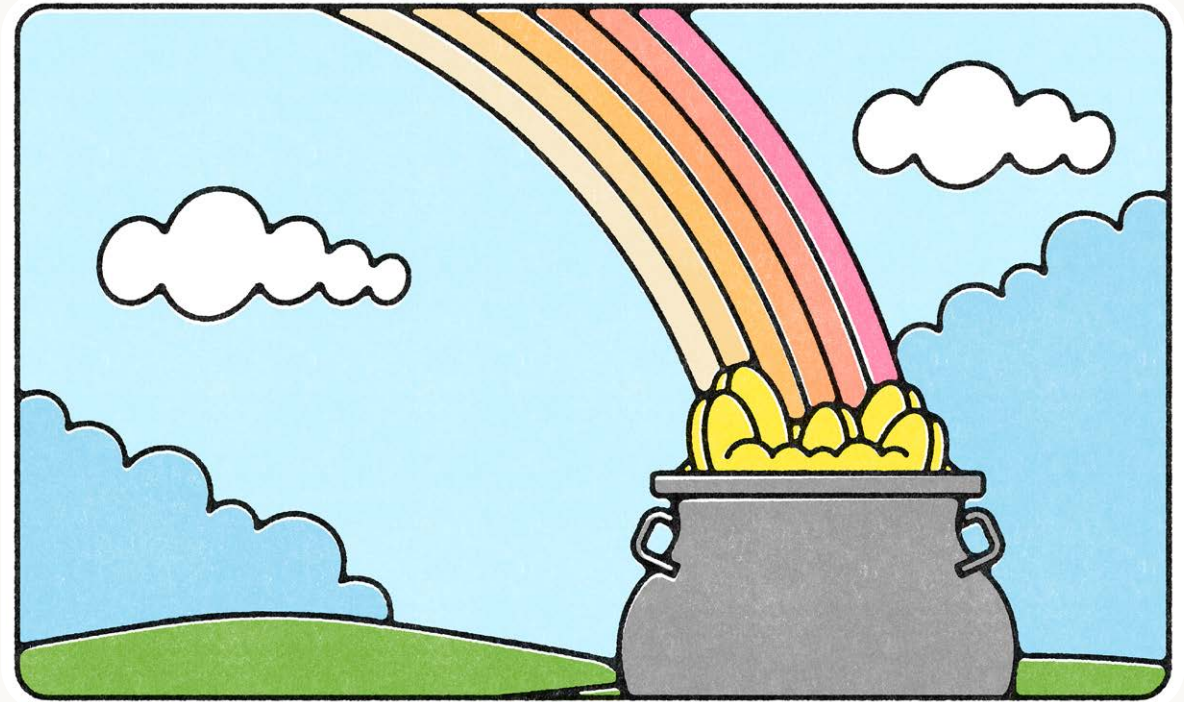

**Here are just a few reasons why Checkmyfile is
about more than a one-off credit report check:**

1. **Moving house?** Information on your credit report may change between the time you get a Mortgage in Principle and when you have your final drawdown checks. You can monitor this on your file.
2. **Being on the Electoral Roll** significantly impacts your credit score, and it can take up to three months to show on your report once you've registered. See which agencies are reporting your details correctly and identify any errors.

Keep your credit health in check

- If you spot an error, we can **raise a dispute** with the three main credit reference agencies on your behalf.
- Get your credit health in shape for those **future credit applications**. By keeping things in check, you can save yourself time and avoid any nasty surprises further down the line.
- With an eye on your information, you'll be able to **track changes** and see the impact they have on your credit score.
- Monitoring your file puts your finger on the pulse of your credit health. If something goes wrong, you'll know about it, and **understand the steps needed** to put things right.
